QUALITY OF "V" PEACHES
SET FORTH BY ORIGINATORS

Vineland Experimental Farm Explain The Differences In The Various Types — Work Of Propagating New Varieties Started In 1911 — There Is A Wide Variance In The Eight Types.

In a recent report of breeding projects issued by the Horticultural Experiment Station at Vineland, eight popular varieties of peaches are listed as being of Vineland origin, a number having proved of great commercial value both in the United States and Canada.

In breeding peaches, E. F. Palmer, director of the station, states that it is the function of the staff at the station to originate new varieties and to arrange for adequate testing of any which show commercial possibilities. Main objective in their breeding projects have been the extension of the season for peaches of the Elberta type, with earlier and later maturing varieties, and the general improvement of yellow-flesh, freestone varieties, with particular emphasis on quality attractiveness and suitability for preserving and fresh fruit purposes.

Work which was begun in 1911, has resulted in the eight named varieties, including the popular group known in the peach industry as the "V" peaches, Vedette, Valiant, Veteran, Viceroy and Vimy, also the Vaughan, which has never

Revised Figures
For Fruit Crop

Latest Estimates Higher Than Earlier Reports — Peaches 56 Per Cent Greater Than Last Year.

WESTERN ONTARIO

Apples: Somewhat improved prospects in Niagara, Norfolk and Georgian Bay areas now indicate a total commercial crop about 11,000 barrels better than previous estimate, or 419,500 barrels. Present estimate is only 6% less than 5-year average 1940-1944. More recent temperature and other conditions have generally been satisfactory and insect and fungus injury fairly well controlled, except for second brood Codling Moth damage in the odd orchard. Apples are colouring well but sizing has been somewhat retarded in those areas most affected by dry weather in mid-summer. In general, the quality of Apples in Western Ontario this year is expected to be very good.

Three Car Crash

Bright lights were blamed for a three-car accident on No. 8 highway near town on Wednesday night last, which caused several hundred dollars damage to vehicles. While several persons were shaken up, none were seriously injured. The accident occurred when cars in charge of Charles Campbell, 332 Gage avenue north, Hamilton, and Dmytro Shuvara of Grimsby, were in collision, the latter careening into one driven by Ray F. Morningstar, of Tonawanda, N.Y. Provincial constable E. G. Hope, Grimsby, investigated.

This Was A Lovely Driveway

It is a long time since this photo was taken but surely there are plenty of people in this district who know this driveway and its location, but it would surprise you the number of people, who should know, that will call us up and give us the wrong answer. There is not much of this scene left today, although if you go to the spot you can see vestiges of it. Where is it?

Tax Rate Struck
For The Township

Is 16 Mills — A Jump Of Two Mills Over 1945 — Recommend One Mill For Hospital.

Ratepayers in North Grimsby get a two mill jump in their tax rate this year on their general tax rate. Of course school taxes for each school section, which vary, must be added to the general rate. Township Council in special session on Saturday, after due consideration, struck the 1946 rate at 16 mills which is two mills higher than the 1945 rate.

Council passed a motion recommending that the 1947 council make provision for the levying of one mill on the tax rate, to be drawn as needed, for West Lincoln Memorial hospital, providing that a member of township council be a member of the hospital Board of Management.

Next regular meeting of council will be held on Saturday afternoon, October 12th.

Foolish To Take
Risk With Health

This Is National Immunization Week—Citizens Should Take Advantage Of Available Health Services.

(By Dr. J. M. MATHER, M.O.H., Lincoln Health Unit)

This is National Immunization Week. The Health League of Canada sponsors this week and has the co-operation of Federal, Provincial, and Municipal Health Departments all across Canada. The purpose of the week is to again bring to the attention of parents the effective immunization measures that are available for prevention of certain communicable diseases.

We all become panic stricken when poliomyelitis appears. Yet, last year in Canada, there were only 24 deaths from polio while there were 487 from whooping cough, 270 from diphtheria, and 79 from scarlet fever. It is tragic that no sure means has as yet been found to prevent polio. However, it

Fatal Accident
Hunting Skunks

Wm. Gulewich Of Clinton Township Crawling Under Building When Gun Discharged — 19 Years Old.

William Gulewich, 19-year-old son of Walter Gulewich, Clinton township, was killed instantly by the accidental discharge of a shotgun on Saturday night while hunting for skunks on his father's farm, on No. 8 highway, just west of Beamsville.

The chicken house is built on a hillside in steps, there being much more open space in some places underneath than in others. According to information given police, young Gulewich was about 15 feet under the building and immediately behind him were his uncle, Michael Gulewich, his father and a 14-

There Is A Bad
Bottle Shortage

Citizens Asked To Put All Their Old Bottles Out With Salvage On Saturday For Collectors.

Now is the time to get rid of all your scrap and salvage before winter sets in. Saturday will be the day that you can do so. That will be Legion Salvage Collection Day. Tie up all your magazines, newspapers and scrap paper and set them out at the curb or roadside and Legion truck will pick them up some time during the day. Also gather up all your other scrap and it will be picked up too.

Bottles, large and small, jars and other glass will be gladly received. Owing to strike conditions there is a terrible shortage of bottles of all kinds and right now the Legion can get a good price for them, particularly liquor and wine bottles, all sizes.

Don't forget Saturday is the day for salvage collection. Get your stuff ready now.

Pay Plenty For
Facing Peaches

Charged with delivery of improperly packed peaches for sale, two district farmers were fined in police court Thursday by Magistrate J. H. Campbell. They were William Stoyanowski, R.R.3, St. Catharines, and J. Batoraki, R.R.2, St. Catharines.

Charged under the Farm Produce Grade and Sales Act, the two men pleaded guilty. Evidence was given in both cases by Ontario Department of Agriculture inspectors. Batoraki was fined \$40 and costs for delivering 21 baskets of peaches with No. 2 grade peaches on the top layer and much smaller peaches in lower layers.

According to evidence presented, Stoyanowski delivered 140 baskets of peaches all of which were described as "most attractive" on the top layer. However, the inspector

TAKE A GUESS

How well do you know your Grimsby?

The Independent does not believe that you know it as well as you think you do. If you know it well, then tell us where the street known as—

FERGUSON AVENUE

is located. What direction does it run? This is not a gag, there actually is such a street in town. To the person giving us the first correct answer we will give a one year subscription to The Independent.

Pity The Pheasants

LINCOLN HUNTERS WILL HAVE
THREE OPEN DAYS IN OCTOBERLands In England
And Lands A Job

Ken Harris Went To Old Land To Gain Experience In Electrical Work — Is With R.A.F.

Some five weeks ago when Ken Harris of Beamsville, a five year serviceman, son of Charlie Harris, the Fruit Belt's crack Chimney Sweep, walked in the office of The Independent and announced that he was going back to England to gain real experience as an electrician, then came back to Canada and start business, we were a little bit dubious.

At any rate, Ken called for England. Landed. Mootched around a little bit and finally landed a job with the R.A.F. at the testing grounds in Farnborough where all the new model planes are tested.

He informs his father that he passed the examinations to secure the job 98 per cent and has the promise of the force that he will soon be transferred to the power house where he will get the experience that he is looking for.

Remember, he is not a member of the R.A.F. He is a civilian employee. Above all he is a real Canadian, who realized the value of experience and he has gone to the right spot to get it. He hopes within two years time to come back to Canada and start an electrical business in the best town in Lincoln County, Grimsby.

Gainsboro Deputy
Passes Suddenly

News of the sudden passing of Lorne Book, a member of the Lincoln County Council, was received by his associates on the council and by county officials Friday morning with a deep shock. Mr. Book was deputy reeve of Gainsboro Township and was elected this year.

Apparently in good health, he attended the August sessions of the council but was not present at the September sessions on Tuesday last. It was only on that day that the county council learned from Reeve William E. Heaslip of Gainsboro that Mr. Book had been ill for about a week in the Hamilton General Hospital.

A quiet, retiring man, Mr. Book did not take a prominent part in county council discussions unless he was well versed in the subject under discussion. Mr. Book resided at R.R.1, St. Ann's. The flag on the county court house was ordered to half-mast by Warden Robert M. Johnston of Port Dalhousie Friday morning when the news of Mr. Book's passing was received in St. Catharines.

It Might Do Good

COUNTY COUNCIL GETS WRATHY
OVER REPORT OF GRAND JURYMilk Price Jump
Means \$50 A Day

Will At Least Cost Town And Township Residents That Much — Paid By Subsidy Before.

Milk has jumped three cents a quart to the consumer. That is the consumer is now having to pay that extra three cents a quart. Heretofore the three cents was being paid but the money was coming from a Dominion government subsidy, said subsidy coming out of the general taxes. From now on the actual consumer will be paying for his or her own milk instead of the general public paying that three cent portion.

In Grimsby it will be approximately \$50 a day extra to the milk drinkers of the town and township. As near as can be figured there is in the neighborhood of 1700 to 1800 quarts of milk consumed in the two municipalities that come from the Model Dairy, the Beamsville and the Stoney Creek Dairy. This amount of milk at three cents a quart brings the total in money to between \$51 and \$54 a day that the consumers will pay instead of coming from a subsidy.

New Scout Troop
Formed At Beach

Group Capt. H. L. Dowie, O.B.E., Will Have Charge Of Group — Cub Pack Will Be Formed.

The Boys and Girls Committee of the Grimsby Lions Club informs the Independent that they are sponsoring a new Boy Scout Troop for Grimsby Beach.

Group Capt. H. R. Dowie, O.B.E., who hails from Winnipeg and who recently purchased the Bouslaugh home on Main St. East, has consented to act as Scout Master for that area and has been appointed Acting Scout Master by District Scout Commissioner S. R. Gibson, pending official appointment from Scout H.Q. at Ottawa.

The new troop will meet in the basement of the Park School by kind permission of the School Board, on Wednesday evenings at 7:00 p.m. The organization meeting taking place Wednesday, October 2nd.

The Scout Committee covering this area will consist of Mr. Orville Eickmeier, Mr. Cecil Bell, Mr. William Nelles, Mr. John Aikens and Dr. Aubrey Crich with possible additions.

Miss Morley of the Park School staff has graciously consented to assist with the Cub Pack.

Group Captain Dowie and The Lions Club Scout representatives making arrangements and organizing this group and at the time of writing a sizable troop is insured. Any interested parents or prospective Scouts or Cubs may make inquiries through any of the above.

Incensed Over What They Claim Is "Unfairness" In Jury's "So-Called" Recommendations — Registrar's Office Would Have A Whole Lot More Room "If It Had A Good Housecleaning."

At the close of the September sessions Tuesday afternoon in St. Catharines, the Lincoln County Council, incensed at the "unfairness" of the report presented by the Grand Jury at the recent fall sittings, roundly condemned the jurors for their actions and "so-called" recommendations.

Words ran hot and tempers were high when the report of the Grand Jury's recommendations was read to the council. The report was only adding insult to injury when it mentioned in great detail the grievances of one office in the county court house in particular and failed to comment on the fine job which has been done during the year to remodelize and redecorate the whole building.

Discussing the fact that the gist of the report of the Grand Jury was made up of complaints regarding the lack of space in the Registrar's office, Clerk W. H. Millward pointed out that "the jury broke their necks to get out of my office when I was telling them of the program of work we had planned and evidently got most of their report across the hall." He outlined to council what the General Administration Committee and Warden Johnston remarked that "it was high time Grand Juries realized that everything can't be done at once."

"Green Trees" Is
Open To Public

Gifts And Guests Combined Is Something New In Tourist Homes — In Old Hamilton Pettit Home.

This week is the official opening of "Green Trees" Gift and Guest House, one and half miles west of the Village Inn, on No. 8 Highway, in the old Hamilton Pettit Home. Lieut.-Col. and Mrs. A. J. C. Taylor have started something new in combining Gifts and Guests together.

They are trying to keep everything English and Canadian and are interested in selling any thing attractive that is made in Canada, and are specializing in English China, Canadian Pottery, antiques, blankets, wool, lingerie and hosiery. Some of the things they are carrying for men are shirts, shorts and vests, socks and handkerchiefs, handwoven ties and scarves and hand-made diamond socks.

For the ladies, slips, panties, hosiery (nylons, crepes, and rayon), hand-woven scarves, head squares, wool, knitting books and knitting needles.

For children, Vanta vests, vests and training panties, sleepers, stockings.

For the house, blankets, pillow cases, bath towels, tea towels, hand-woven table mats.

They are carrying merchandise from all across Canada, from Nova Scotia to British Columbia—from Nova Scotia, hand wrought iron and copper fire wood baskets, from

FACTS & FANCIES

Frank Fairborn, Jr.

THE HEIGHT OF FOLLY

You want long distance? Sure. You can get Montreal or Winnipeg, or Vancouver quicker than you can get Beamsville.

Do not blame the little Blue Bells that operate the switchboard. Blame the Tycoons that run the Bell Telephone Co.

Vancouver you can get from Grimsby central in three to five minutes. You cannot get Beamsville in half an hour. This is actual timing. Don't blame the operators. It is all Long Distance. Long calls taken care of first, that is as it should be. But what in the name of Seven Heavens should I have to call Long Distance in order to get Beamsville, five miles away? And when the girls are busy on long calls you never get Beamsville.

I do not know for sure, I am going to investigate, but I believe this is the only case in Canada where a Big Town has to pay Long Distance tolls in order to talk to a suburb.

Why are not the Beamsville calls put through by the local operators instead of harassing the life out of the actual Long Distance operators?

AWAKE AT LAST

I got a great kick last week. The Grand Jury Report and the repercussions from County Council.

I would say from reading the absolutely authentic reports as printed in the St. Catharines Standard, that the Grand Jury did a great job, but like all humans, erred in certain spots.

Also, I would say that County Council might have a beef coming on that report in certain spots, but not on the whole.

My great kick comes from the fact that somebody at last, even if it a Grand Jury, has awakened County Council up. I have contended for years, and still contend, that they are now in this day and age an unnecessary body, which they are, at any rate they were awake last week, thanks to the Grand Jury.

I will agree with Council on their kick of the Jury's recommendations that stokers should be put on the boilers that supply heat to the County Goal.

In the words of Warden "Bob" Johnston, "men are not sent to jail for a vacation."

They certainly are not sent to jail for a holiday. They are sent there because they have committed an offence against society and law and order. Then why treat them better than they had ever been treated in civilian life, and possibly better than the people are being treated against whom they committed the offence.

Is it not terrible that a man who commits a criminal offence and is sentenced to serve a jail term, must shovel coal into the boilers that heat the building in which he is incarcerated?

What is the use of our police and other judicial officials rounding up criminals and other law breakers and giving them jail terms if they are going to live better and do less work inside the walls than they did outside? Jails are not sea shore resorts, and I for one would positively refuse to pay taxes to keep up a jail if such cushy things are going to go on.

If I were the Foreman of that Grand Jury, or even a jury man, I would hang my head in shame that I ever countenanced such a recommendation. If it were not for the fire laws and the insurance, I would even take the boilers out of the County Goal and put the old wood burning stoves back in place and the old woodpile and saw-horses and buck saws back in the yard. Saw wood or freeze to death. You got yourself in here so you have no kick coming.

The other recommendation that the

Grand Jury reported I am not familiar with so have no comment, other than that I believe Reeve Saunders, of Beamsville, has done a remarkable job of renovating the County Buildings.

As I write the thought has flashed across the mental horizon, that possibly the Foreman of that Grand Jury and the Jurors themselves believe that the time has come to do away with County Council, and their recommendations, which have caused such a boiling pot of indignation, were made with that idea in view. I hope that was their point.

I am going to take up this County Council question within the next couple of weeks and show the ratepayers just how useless a body of men they are, as County Council, not as Reeves and Deputy-Reeves of their various municipalities. I will show you just what this County Council is costing each municipality in taxes each and every year and just how little they control of the huge expenditure that the County spends. It is not one-third, I tell you that now.

WHITE COLLAR GROUP

Elastic bands by the government to hold back wage increases; stone walls against salary increases. That is the neat way The Financial Post regards government policy as it is applied so rigorously against the white collar group of citizens within the country, and not an unimportant group at that, although palpably without organization.

The Post says:

"Some relief for the white collar, salaried families is very clearly called for. They have taken a terrific squeeze from the rising prices and high taxation and as a group they have had virtually no relief.

"Wage earner income has swelled substantially. People who have their own businesses—doctors, lawyers, farmers, storekeepers, manufacturers and so on—all of them, one way and another, have been able to maintain or increase their real returns. But not the salaried group. It alone has been told to take the squeeze and like it. This situation is grossly unfair. The government can't justify using elastic to hold back wage increases and using stone walls to hold back salary increases."

The government does not even practise what it enforces on the outsider. For instance, when the rise in the cost of living was announced a few weeks ago, every government servant received a proportionate advance in salary. If that can be adopted for civil servants, then what about the white collar chap on the outside? And his name is pretty well legion. Why is this unfair policy ordained and maintained with such rigidity?

THE SAME ESCARPMENT

"Textiles," the official publication of the Primary Textiles Institute, carries the following note:

"Nested under the Niagara Escarpment, in the valley of the Credit River, Glen Williams, Ont., (pop. 500) is a textile town. Smaller than most of the 186 centres where Canada's textile mills are located, the Glen has been turning out textiles without a break for going on one hundred years."

Naturally, the Niagara Peninsula escarpment is regarded as that magnificent protuberance of Nature which extends from the Hamilton "mountain" down to Queenston. The writer of the note about Glen Williams is no doubt topographically right. We have no monopoly on the escarpment east of Hamilton. Glen Williams is in Halton County, near Georgetown. Incidentally, the little hamlet of 500 has two textile mills, and there has not been a shutdown since 1878, when the industry was first started by a Yorkshireman, except for one year after the close of the First Great War.

Such a thing as a strike in Glen Williams might be talked about at the tea meetings. In fact, it might be a sensation!

Each day's sunset gives one less day to live, but one more day to remember.

Class Prophecy

Since no one in the class seems to know what he wants to do in the future, we'll wager a guess. The following may be strictly fiction, but time will tell.

The year is 1966. Art Brydon is campaigning to the latest political party "Brydon's Conservative Liberal C.C.F.'s." Sandy Marr is now President of Niagara Packers and doing very well. The newspapers reported today that Eileen McPherson has just won the ladies' Boxing Championship. The chief dentist in Grimsby is Graham Brownlee, and Ian Marr is our prominent medicine man. The other day I was talking to Allison Jeffries and she was telling me she had just accepted the position as superintendent of the city pound. She also told me that Don Riches our glamour boy had just been appointed City Engineer (garbage collector, that is). I was down to see Betty Hand yesterday and she seems very happy as a housewife.

While walking up the mountain one day I came across Doug Bedford busily replanting trees. He was telling me that Hare Jewson was planning to open his veterinary practice soon with Dorothy Metcalfe as his assistant. Dorothy has just graduated from McMaster which she entered in 1947. Nancy Gordon is still making temperatures rise in St. Mike's Hospital, Toronto University.

Anna Earle is trying to drill into the G.H.S. pupils some knowledge. The flower growing industry in Grimsby is being carried on by Doug Cole & Sons.

Ruth Manning is chief chef for Mammy's Bakery. I have heard of some unaccounted for illnesses among Mammy's customers lately. I saw Lily Earle at a hockey game in Maple Leaf Gardens, apparently still following the Peach Kings. There is to be a recital in Eaton Auditorium Friday night by Joan Eaton, which I imagine, will be good.

Well, back to 1946 and the present.

L. RAHN, F. DAFOR, in High School Magazine, "The Torch"

CAUSES OF FIRES IN CANADA, 1945

For those who are curious as to how the 52,173 reported fires in 1945 started, and how the loss is apportioned under the various causes, the following table is given. The figures are taken from the Statistical Report of Fire Losses in Canada, 1945.

Causes Reported	Number of Fires	Property Loss
Smokers' carelessness.....	17,582	\$2,286,430
Stoves, furnaces, boilers and smoke pipes.....	5,464	3,097,785
Electrical wiring and appliances.....	2,534	3,812,153
Defective and overheated chimneys and flues.....	3,708	1,424,113
Matches.....	3,044	713,868
Sparks on roofs.....	1,262	713,380
Hot ashes, coals, open fires.....	2,558	815,632
Lightning.....	1,178	633,945
Petroleum and its products.....	1,209	1,616,160
Lights, other than electric.....	1,204	493,310
Exposure fires.....	497	714,598
Spontaneous ignition.....	472	1,323,930
Incendiarism.....	174	784,946
Miscellaneous known causes (explosions, fireworks, friction, hot grease or metal, steam and hot water pipes, etc.).....	4,449	4,785,639
Unknown.....	5,838	18,686,131
Total.....	52,173	41,903,020

Fire Prevention Week in Grimsby. October 6-12. Fire Chief LePage says "Thank You."

ERRORS IN NEWSPAPERS

Probably people often wonder why they see so many mistakes in newspapers. Editors wonder, too, but they can't seem to do much about it. Mistakes that are both foolish and provoking continue to occur periodically and unpredictably.

Recently an editor, making apologies for a mistake, said "Newspapers are not produced in the calm thoughtfulness of the morning after."

"That, of course, is the truth," said the Lethbridge Herald in discussing this subject. "Newspapers are produced under high pressure. The average newspaper contains something like 75,000 words, which is about the size of an average novel—quite an evening's reading."

But whereas the novel is produced in a period of probably a month and is read and re-read for mistakes, corrected by the author and scanned from every angle, the newspaper's 75,000 words are written under pressure, put into type, proof-read rapidly and sent away to the press, always with one eye on the clock to catch trains, and buses so it will reach the majority of its subscribers the day of publication.

It's an old saying that nothing is so stale as yesterday's news, and it is the urgent requirement to present today's news today which causes most of the mistakes in newspapers which raise the editor's blood pressure as he reads the paper calmly after the day's work is done.

"We say there are 75,000 words in the average day's newspaper," the Lethbridge writer continued, "but that does not mean that the news editors, city editors and other editors handle only 75,000 words during the day. They handle probably 200,000 or 250,000 words. The New York Times handles 1,500,000 words from which to cull the 250,000 words which go into the average Times during the day."

News is called for its newsworthiness, checked for accuracy, names and dates are checked, and in the end it is written down to the available space—which is a problem in these days of newspaper shortage. Movie newsroom pictures taken while the editions are being "put to bed" are admittedly much overdone, but it is a fact that high pressure to get today's news today into the hands of readers is the main cause of the mistakes which sometimes give the public a low opinion of newspaper men.

Rubber tired lawn mowers in front of Current and Betzners.

Eaton's delivery truck drivers furrowing their brows over wrong street addresses on the bundles.

Mac Signs painting The Independent block in less than no time with a power driven spray gun outfit.

This columnist coming down street with a new spade over his shoulder. Don't worry, he's not going to use it.

"Honey" Shelton reminiscing about his school days on the Mountain top when three next door neighbor families had 25 kids between them; 10 Lawsons, eight Sheltons and seven Hills.

Chief Turner giving the Fruit Belt's Autumn visitors from "Rabby-dubville" the Burns Rush out of town. The trouble is while he is running two out one end of town, three come in the other end.

A local wag suggests that the corner of Main and Mountain is the "Irish Free State Corner." Grimsby Fuel and Feed building is trimmed with orange. Tomlin block is trimmed with green. The state colors of the Irish Free State. Send for deValera.

Four of "T. V.'s" lovely teen-agers putting the bird on somebody as this columnist passed by. Enough of the "rasp" was hearable to cause me to give a sudden look. As I passed in the portals of Millard's drug emporium I heard, "did you see the look he gave us."

Orchids this week to "Phoebe" Mino, head meter reader for the Grimsby Natural Gas Co., 28 days in the month he is engaged with a gang of men on construction and repair work. Two days a month he checks the meters and to do so he gets dressed up, for as he says: "Ladies don't want a dirty clad construction workman prowling around their homes." You have the right idea "Phoebe." It is that kind of thought that builds and maintains a town.

'WAY BACK WHEN

Frank Fairborn, Jr.

A PICNIC—THENADAYS

When the wheat was threshed and the corn laid by and the sun shone hot in the summer sky—then ho! for a picnic day! The hired hand harnessed old Dan and Pete to the big farm wagon, with extra seat, and tossed in some fragrant hay on which the baskets of "eats" were lashed; the ice-cream freezer that I had cranked for hours (so it seemed to me); fried chicken; the shortcake that mother made; a five-gallon pail full of lemonade and some tin-cups—two or three. With everything loaded, away we drove to the verdant coolness of Griffith's Grove, where the sumptuous feast was spread on an oilcloth cover upon the ground, and all of the family gathered around while a thankful grace was said. Then, from moss-rose plates, with steel knives and forks, we pitched in and gave that food "the works" till it vanished quite away. The ants and grasshoppers (uninvited) approved that mess and seemed delighted with our old-time picnic day!

A PICNIC—NOWADAYS

Old Dan and old Pete passed to meadows green; the wagon gave way to the limousine; and now, for a picnic lark, we purchase a cargo of foods galore from the delicatessen - bakery - store, and motor to Blue Ridge Park! Collapsible tables of ample size with linen covers delight our eyes, as we sit on a folding chair and eat, from a modern disposable dish, choice viands as tasty as one could wish, with genuine silverware! The wash-bowl "ice-box" is quite passé—a thermos basket we're using today for keeping food hot or cold; and I, with a tedious task assigned, give thanks for ice cream that's ready-made—and not cranked out as of old! A radio harmony sweetly blends with the song of birds as the glad day ends in the gold of the setting sun; and, whether old-fashioned or up-to-now, I think nearly everyone will avow that picnics are lots of fun!

SAY THE JOURNALIST

Women are like newspapers, because—
They have forms.
They are bold face type.
They always have the last word.
Back numbers are not in demand.
They have a great deal of influence.
They are well worth looking over.
You can't believe anything they say.
They carry the news wherever they go.
If they know anything they usually tell it.
They are never afraid to speak their own minds.

They are much thinner than they used to be. Every man should have one of his own and not borrow his neighbour's.

It ain't no use to grumble and complain;
It's as cheap and easy to rejoice;
When God sorts out the weather and sends rain,
Why, rain's my choice.

Phone THOROLD 114 for Pick Up or Delivery.

Mainly For MILADY

Try This One Out

We heard of a neat trick for pressing sleeves on garments, the other day. You can make yourself a special board. Roll a big, fat magazine up into a tight coil. Pad it by wrapping it with several layers of soft cloth. Cover the padded roll with muslin, sew up the ends with a needle and thread, and there you are, with a handy little "sleeve board."

What Next?

First the food producers sliced the housewife's bread. Then they pre-washed her spinach. Now they promise she will shortly be able to buy her potatoes already peeled. One wholesaler promises this improvement by fall. Their claim is that the 10 per cent. added to the price actually will mean a saving, since the loss of potato which occurs under wasteful home peeling will be practically eliminated.

Buying Without Coupons

If you were in England and watched the ads you could buy, without coupons, wedding dresses, diamonds, swim suits or "a hut, in nice condition, with wood floor." Nice mixture! Here are some, picked from London papers, at random: "For sale—exquisite diamond ring, one large central d. and 10 smaller d's. A real bargain, £45" . . . or "brocaded satin wedding dress with train, stock size, no coupons, cost 22 gns. Offers nearest to 12 gns" . . . or, "A long white taffeta wedding dress or dance frock, unworn, no coupons, £10" . . . or, any number of folding pre-war prams and a canopy playpen. . . . Your hubby might be interested in a "Gent's brown suit, chest 43" (if he's chesty?) "also new pair white flannel trousers, same size." Also, gent's navy chalk-striped suit, chest 36. And golf clubs. No price indicated here.

Does Your Baby Suck His Thumb?

That dates you. You're middle-class. Or so finds Dr. Martha Ericson, a Detroit psychologist, whose pronouncement is that youngsters, on the so-called "gold coast," are less mother-nursed than the tenement child. And as the infant has to suck something—that something is generally his majesty's thumb. Middle-class children who fail to live up to parental expectations, are rated as black sheep, whereas in the tenement area—where the hurdles are not so high—failure to take the jumps is not considered so serious. Dr. Martha concludes that on the whole, lower-class life, with its looser social structure and less exacting demands, is "unquestionably" easier as a way of life than the middle-class tree-bordered avenue.

Seed

To while away weary hours in the nylon line, women might commit these lines to memory. History has it that "In the second year of Queen Elizabeth, her silk woman, Mistress Montague, presented her majesty with a pair of black knit silk stockings for a New York's gift; the which, after a few days wearing, pleased her highness so well she sent for Mistress Montague, asked her where she had them, and if she could help her to any more, who answered saying, 'I made them very carefully, of purpose only for your majesty, and seeing these please you so well, I will presently set more in hand.' 'Do so,' quoth the Queen, 'for indeed I like silk stockings so well because they are pleasant, fine, and delicate, that henceforth, I will wear no more cloth stockings.' And from that time until her death the Queen never wore cloth hose, but only silk stockings."

GEORGE WARNER,
Chairman, Salvage Committee.

Hello Homemakers! "All cookery rests upon an egg," a famous French chef once remarked. The wisdom of those words is fully appreciated by home cooks when for one reason or another eggs are scarce. When you have to do without eggs, you realize how much they contribute to the preparation of good food.

At present eggs are plentiful, so why not widen the scope of your cookery while you can? You know the versatility of the egg. It may be served in the shell or plain, out of the shell—boiled, poached, fried or as an omelette. Combined with meat, vegetables and sauces, eggs become the main dish of lunch, supper or dinner. If you incorporate air into eggs by beating, they act as leaveners in cakes and souffles. In custards, puddings and sauces, eggs are thickening agents. They are used in making ice creams to prevent the formation of ice crystals. When hard-cooked, eggs are effective garnishes for salads and vegetables, adding to the nutritive value of the dishes. In brief, this general survey shows the uses of eggs in every day home cooking.

Since you are familiar with egg cookery, you will know the advantage of using low temperature for cooking eggs. Below-boiling or simmering temperature of soft-cooked or hard-cooked eggs prevents toughness.

TAKE A TIP

1. When preparing hard-cooked eggs for salads, pour boiling water over them and let simmer for 20 minutes. Then plunge at once into cold water. You will find that this will prevent the formation of the dark ring on the yolk. Adding a little salt to the water in which the eggs are cooking (1 tsp. salt to 1 qt. water) makes shells peel easily.
2. When frying eggs, use one tbsp. of bacon fat for each egg. Keep the electric element turned low. A teaspoon of hot water added to the fat helps to prevent the egg whites becoming tough.
3. When poaching eggs, use a fairly deep pan with slanting rim. The water should be about 2 inches deep in the pan. Add 1 tsp. salt and 1 tsp. vinegar to 2 cups water to prevent eggs from spreading. As the water begins to boil, slip the

raw eggs in from a saucer held close to the water. Cover and steam on surface of the range as the water should not boil while cooking.

EGG DISHES

Serve poached eggs on toast points with turnip greens; on halves of broiled tomatoes with cheese sauce; with corn and diced bacon; with peas and split rolls; on potato cakes or corned beef hash.

Scrambled eggs may be served as follows: With finely chopped green onion or chives, along with baked sausages; with corn and diced meat; with cooked peas and carrots.

Omelettes, either plain or fluffy may be served with greens and creamed potatoes; tomato sauce and broiled wieners; baked tomatoes and green beans.

Egg and Potato Pie is a good all-in-one dish. Place mashed potatoes in greased casserole. Arrange sliced hard-cooked eggs on top. Cover with cheese sauce and bake in moderate oven until heated through.

Eggs Mornay is an attractive dish. Place poached eggs on toast, cover with white sauce, sprinkle with grated cheese and put under broiler element for a few seconds.

Eggs a la King are hard-cooked eggs sliced in cream sauce served on hot cornbread or split biscuits. To make it an authentic dish add cooked mushrooms and broiled bacon.

Egg sauces are numerous in variation. A favourite is chopped cooked eggs added to plain white sauce then seasoned with a little curry. Serve on rice or rice potatoes.

THE SUGGESTION BOX

Sprinkle 4 tps. sugar well and sliced red cabbage. Drain. Add ½ let stand overnight. cup mustard, 1/2 cup vinegar and ¼ cup oil. Add 2-3 seed and place in cup mixed pick-up sugar and in a bag) to 2 ling spices (heat to boiling, 1/2 qt. vinegar, 1/2 cup oil. Pour over cabbage. in cool, dark . . .

Engagement

Mrs. James M. Merritt announces the engagement of her only daughter, Olga Dare, to Lieut. Kenneth Lionel Hudson, son of Mr. and Mrs. L. O. Hudson both of Grimsby. Wedding to take place Saturday, October 19th, at four o'clock, in St. Andrew's Anglican Church.

I.O.D.E.

The regular monthly meeting of Lincoln Loyalist Chapter, I.O.D.E., was held on Monday, September 20th, in the Chapter Rooms at the Village Inn, with a large number of members present and a full program was outlined for the coming season.

A letter of thanks was read from Christie St. Hospital for the fruit sent by the Chapter.

The War Memorial Fund draw was conducted by Mrs. Archie Alt-on. The toaster going to Mrs. Ralph Boehm, the tray to Mrs. T. R. Bell, and the iron to Mrs. Poole, of Beamsville. The meeting closed with the singing of the National Anthem.

Eastern Star

At the regular meeting of Grimsby Chapter, No. 186, O.E.S., held in the Chapter Rooms of the Masonic Hall, on Tuesday evening, the annual election of officers was held with the following being elected: Worthy Matron, Mrs. David Cloughley; Worthy Patron, Mr. L. O. Hyatt; Associate Matron, Mrs. C. Elmer; Associate Patron, Mr. H. V. Betzner; Secretary, Mrs. J. L. Chambers; Treasurer, Mrs. F. H. Anderson; Conductress, Mrs. H. V. Betzner; Associate Conductress, Mrs. Arthur Clark; Trustees, Mrs. G. Doucet, Mrs. L. O. Hyatt and Mr. J. H. Culp; Auditors, Mrs. Frank Hitchman, Mrs. Ruth St. John and Mrs. Ethel Wray.

At the close of the meeting an invitation was extended to all to proceed to the home of Mr. and Mrs. H. V. Betzner where delicious refreshments were served by the hostess.

REAL IRISH LINENS

NOT SOLD BY PEDDLERS

Women's clubs have been asked to warn their members of a new swindle being practiced by house-to-house peddlers. These men, sometimes speaking a phoney Irish blarney, claim to be selling pure Irish linens, "smuggled in from Canada" or some such fiction. After the peddlers have gone their way, the unsuspecting discover that their purchases aren't "Irish" and most certainly aren't even linen.

Irish linens are sold only through legitimate channels. A well established linen shop or your regular department store is the only safe place to buy them if you want to get what you are paying for. And while prices are still high, the self-evident beauty and the assurance of long durability make real Irish linens an economy in the long run.

Radio quiz questions are always easy to answer except when you are on the spot endeavouring to do the answering.

A scientist says there is no such thing as complete empty space. Yes, some muscle and bone must be in an empty head.

Cubbing

Last week's meetings was given over to the Going-up ceremony. In preparing the out-door setting, the Gray Six had

charge of placing the flags and totem pole and lashing them down securely. The Tawny and Red Sixes set up the tents. The White Six looked after the camp-fire while the Brown Six prepared a model cooking fire. The Blue Six set up a series of trail signs.

The six boys who followed the game of Scouting by entering the troop were Senior Sixer Douglas Kelterborn, Raymond Fisher, David Young, Arthur Henley, John Glenville and a recently transferred Cub, Gordon McIntyre of the 50th Toronto Pack. These boys were introduced to the Scoutmaster, who turned them over to Troop Leader Leon Betzner who placed them in a patrol. Three members of the Group Committee were present to witness the ceremony.

Bobby Globe and Lynn Lambert were welcomed as New Chums in the Pack and got their initial training from Mowgli.

Harry Tuar was presented with his Collector's Badge and Albert Mitchell secured his House Orderly Badge.

The first hike of the season was held on Saturday. Perfect weather helped to make it a real success. The day was spent in practicing the Cub woodcraft training and in a game of Stalk-the-Bear. Possibly the best lesson learned on the hike was the one entitled "Thirst". It was a tough one on all but a few of the experienced hikers.

Preparations are well under way for our Annual Apple Day on October 12th.

A loose mouth and a loose tongue can get a person in a tight spot.

A small town is the one where the best checker player seldom does anything besides play checkers.

Music Recital

On Saturday afternoon, September 28th, Mrs. Bertha Hayes Bolton entertained her pupils and their friends at her studio, 85 Main St. East, Grimsby. A pleasing recital of instrumental music was given by a number of her pupils which were exceedingly well rendered. During the afternoon Miss Mary Poole of Beamsville, pupil of Mrs. Bolton, entertained with several readings which demonstrated her exceptional talent in this study. An artistic rendering of the words of the old song Silver Threads Among the Gold by Mrs. Bolton, illustrating interpretive reading in voice modulation, character work and the finer expression was followed by the instrumental solo played by Miss Catherine Shantz with the same artistic expression. At the conclusion of the program a social hour, brought to a close a pleasant after-dinner refreshments were served which noon.

Public opinion is not only a great leveller but it has a way of flattening some politicians.

A Unique Scarf Given To Player

When Gladys Cooper returned from England to play the role of Grandma Leckie in "The Green Years," M-G-M's filmation of the A. J. Cronin novel, showing the first three days of next week at the Roxy, she brought back one of the most interesting and, from a woman's viewpoint at least, one of the most beautiful trophies of the war yet seen here.

It is a silk square, the size of a scarf, on which is imprinted a map of Europe. What makes it different is that all the names of cities and sections are in secret code. The scarf was presented to Miss Cooper by a British army officer who told her that it had been one of several issued by the Army to certain boys, had gone with them all over Europe and was undoubtedly responsible for saving hundreds or perhaps thousands of lives.

The maps were printed on silk so that they could be worn as scarves or carried as handkerchiefs.

Junior Red Cross Celebrates

Five hundred tons of flour was but part of a Canadian Junior Red Cross gift of foodstuffs, valued at \$51,643.00, to war-victimized children of Czechoslovakia. The shipment included infants food, tinned orange juice, Pabulum and cocoa.

In order to continue this good work in Czechoslovakia and other European countries the Canadian Junior Red Cross is celebrating Junior Red Cross Week, Sept. 29th to Oct. 5th, during which time they hope to enrol or re-enrol 900,000 members throughout the schools of Canada.

Training Sunday School Teachers

The Ontario Religious Education Council, an interdenominational body, convened Tuesday afternoon last, in Trinity Hall, for the purpose of meeting and instructing those leaders, in Lincoln and Wentworth counties, who will be training Sunday school teachers, in the campaign now under way. The meeting was under the direction of Rev. George McLean.

At a regional coaching conference, for Hamilton, Niagara and Halton Presbyteries, held in Trinity Hall on Tuesday evening, Rev. Ross D. Crosby, Dunville, spoke on the duties of presbytery and conference councillors. This was the third in a series of conferences for presbytery councillors in Christian education. Following a supper, provided by the Women's Association, the councillors divided up for group discussions.

A course of Lesson Preparation classes for Sunday school teachers and parents, under the direction of Miss Harriet Walsh, began last Thursday evening in the Parish Hall and will continue for ten weeks. These are followed by an adult Study Period conducted by the rector, Rev. A. E. Brooks. This is a new venture and is open to all.

Things could be worse. The jitterbug craze could sweep the country again.

Attention Please

Owing to the scarcity of professional film and photographic paper, my Christmas business will be limited this year and it has always been my policy to do no rush work. Appointments should therefore be made at as early a date, as possible, preferably during this month.

Obituary

JOHN HARRY MCCOMBS

John Harry McCombs, a life-long resident of Beamsville, died on Wednesday at the Hamilton General Hospital. Mr. McCombs was in his 52nd year, and had been in failing health for some time. He was a former employee of the highways road department, and he also operated a fruit and vegetable acreage in the village. His parents predeceased him about seven years ago, and several cousins and an uncle in Washington state, are the only survivors.

MRS. CORDEN B. HITCHON

The death occurred last Wednesday of Mrs. Corden B. Hitchon, formerly Matilda Wallace. She passed away at the home of her daughter Mrs. W. L. Higgins (Edith), Grimsby. She was born in Brantford in 1862, and was a daughter of the late John T. Wallace and Ellen Rebecca Gray.

Until recent years she had been a life-long resident of Brantford. She was a member of First Baptist Church there, and in her early years was active in work with the Holmedale Mission.

Left to mourn her loss besides Mrs. Higgins are: A daughter, Mrs. H. J. Fuller (Breta), New Haven, Conn.; two sons, Arnold G. Hitchon, Brantford, and L. E. Hitchon, Uniontown, Pa.; three sisters, Mrs. Henry Simpson, Paris; Mrs. H. J. Howard-Smith, London, and Miss Margaret Wallace, Passaic, N.J.; two brothers, John T. Wallace, Brantford, and William Wallace, Fort Myers, Fla.; and ten grandchildren. Mr. Hitchon died in 1935. An elder son, Wilton W. Hitchon, died in 1928, as a result of injuries received in the First Great War.

Funeral service was held on Saturday afternoon at the Farringdon Burial Ground, where interment was made.

Welcome

Sept. 25th—To Wm. and Mrs. Barnes, R.R. No. 1, Smithville, a daughter.

Sept. 29th—To Lyle and Mrs. Luey, Grimsby, a son.

Oct. 2nd—To Ursen and Mrs. Woodruff, Beamsville, a son.

body, and more especially of the senior football team, was one of great jubilation, because of the 18-0 white-washing the seniors dealt to the highly regarded Ridley College Squad.

Preparations were made by Mr. Smith at the dance for a Friday night recreation club and he appointed Ruth Cornwell, Art Brydon and Sandy Marr to do the organizing. At present the whole scheme is somewhat vague but its progress will be reported in this column in weeks to come.

SPORTS DEPARTMENT

G.H.S. DEFEATS RIDLEY 18-0. The Grimsby High School Rugby team has emerged victorious from their first game of the current season.

At Ridley College on Friday last the boys in red and black soundly trounced a powerful Ridley squad. Touchdowns were scored by "Swivel Hips" Jewson on a long forward in the first quarter, by Steve Smerek who recovered a fumble and went over for the tally in the second quarter, and in the fourth quarter by "Muscles" Ruse who intercepted a Ridley forward and ran 40 yards to score. Gus McMillan made a tackle in the Ridley end none for a single point and converts were made by Doug Cole and Alan McPherson in making the score 18-0.

In spite of the fact that this game was played at St. Catharines a large number of Grimsby students attended. We were glad to see the pupils and teachers turn out to support their team as this means a great deal to the boys on the team. Keep it up.

Grassie News
(Mrs. Clifford Walker, Staff Correspondent)

Mrs. L. Thomas held a party for Mrs. Clifford Peacock and Miss Helen Smart. Mrs. Peacock was given a table lamp as a farewell gift. Miss Smart was also presented with a lamp as a wedding gift. The evening was spent playing progressive court whilst a dainty lunch was served by Mrs. Thomas.

Mrs. Clifford Walker accompanied her parents Mr. and Mrs. Peter Robertson to the funeral of her uncle, Mr. Sandy Robertson, of Dunkirk, Saturday. Mr. Robertson passed away Thursday after a lingering illness at the age of 67. Congratulations to Mr. and Mrs. Smart in honour of their new baby sister for Susan.

In this column last week we told you the election results would be announced. Well here is the great news—the students who will make up the Student Executive 1946-47 version.

President—Havelock Jewson.
Vice-Pres.—Elizabeth Hand.

About THE NEW PRICE OF MILK

The new price increases announced by order No. 46-9 of the Ontario Milk Control Board, effective October 1st, 1944, were brought about due to the following circumstances:

1. Cancellation of the Federal Subsidy of approximately 1½¢ a quart to producers.
2. Approval by the Ontario Milk Control Board of an additional 1½¢ a quart to provide for increased costs, mainly farm production.

This increase in the retail price of milk to the consumer applies in all markets throughout Ontario, to all kinds of milk including special milk, chocolate milk, buttermilk, etc. Increases for the various units of milk will be at the rate of 3 cents per quart. Cream prices have been increased at the rate of approximately 3 cents per half pint.

Milk Tickets purchased at the price in effect prior to October 1st, will have a value 3 cents less per quart than the October 1st price; cream tickets will have a value 3 cents less per half pint.

This means that it will be necessary for consumers using old tickets to pay an additional amount in cash along with each ticket, in order to bring the payment up to the new prices in effect on October 1st.

MIGHT DO From Page One

Warden Johnston pointed out that the Registrar wished the country to build a wing on the building to give his office more space and to this the council was unalterably opposed as they felt it would spoil the architecture of the building.

"Certainly the Registrar needs more space but he also needs a more efficient use of the rooms he has got," Warden Johnston stated bluntly, adding, "If the office had a good housecleaning he would find a lot more room."

In the report, the Grand Jury stated that "nothing has been done in the office of the local registrar and went on to remark that immediate steps should be taken to increase the space for working and filing of documents in the Registrar's office. Members of the council acidly remarked that evidently the Grand Jury had not been informed by the Registrar as to the improvements and alterations to be done and which he was aware of at the time.

At this stage of the discussion, Warden Johnston reminded council that plans have been set up for the renovation of the registrar's office and that some room is already available in the basement for storage of documents. "There will be plenty of space if it is adapted to use properly," the Warden dryly remarked. He also said that the former Warden's office will be used as an examination of discovery room for the Registrar so that the large table now in his office can be removed when the room will be repartitioned and the space re-allocated. Clerk Millward interjected to point out that the Registrar already has fifty percent more filing space with the new vault in the basement.

Council sarcastically asked who was going to supply the thousands of necessary dollars when the members listened to the report recommending the laying of Mastic tile throughout the building. The flooring in most of the offices and halls is in excellent shape and the cost of laying Mastic tile on all floors is not only prohibitive but impossible, said Warden Johnston.

Not only in regard to the court house did the report of the Grand Jury come in for censure. The recommendations regarding the county jail brought angry exclamations that the jurors were trying to establish a recreation centre for the prisoners and get them peaches and cream for meals.

The jury's report criticized the county for the lack of variety of the meals at the jail, especially in regard to vegetables and fruit. Warden Johnston pointed out that the meals are set up by regulation of the Department and must be adhered to regardless of whether the jurors think the prisoners are not getting enough fruit.

Some alterations suggested by the report were promptly dismissed by the council as not being necessary for the custody of the prisoners and a recommendation that oil heating or a stoker be installed was also promptly torn into shreds and literally kicked out of the door of the council chambers. Warden Johnston said that hand-firing of the furnace was done at the recommendation of the office of the Provincial Secretary to give the prisoners something to do to keep them busy. He also pointed out that the coal is carried by the prisoners to the furnace room and that this is also done to give them as much to do as possible. "Evidently the Grand Jury forgets that these men are there for punishment and not for a vacation," remarked the Warden.

Reporting on the Industrial Home, the Grand Jury recommended the installation "without delay" of a sprinkler system. The Warden caustically remarked that evidently the jurors forgot about the automatic fire alarm system from the home to the Fire Department in St. Catharines and the annunciator system.

Commenting on the thought of the Grand Jury that the caretaker should have more help, council said, "we don't think so and we're in a better position to know." The county recently employed two full-time maintenance men to assist the caretaker.

The General Administration committee on the authority of the council last year embarked on an ambitious plan of remodelling and redecorating the county court house and to date the council chambers have been renovated, a committee room provided with new furniture, the clerk's and assistant clerk's office renovated, new wash-rooms installed. Mastic tile laid in several chambers and offices, repainting done in the chambers and four offices on the lower floor. Warden Johnston, stating that the remainder of the building would be done as soon as possible, remarked that "the jury must have missed all that."

Before leaving the question of the Grand Jury's report, the coun-

oil approved a recommendation of the General Administration Committee presented by Reeve R. A. Saunders of Beamsville. Following the resolution:

That the communications from the Inspector of Legal Offices and the Registrar, S.C.O. and the removal of the Grand Jury be re-considered and since the recommendations and since the recommendations are already in which act's list of improvements are being done when considered and further that the report be filed in that this report is many improvements fails to mention made this year — others that are in progress or — and others that are soon as possible, be completed as

Kovda, of edina, Ohio; Mr. and Mrs. L. Marlyn, of Flint, Mich.; Mr. and Mrs. Ross Price, of Sweetwater, Tenn.; Mr. and Mrs. H. Stinson, of Flint, Mich.

PAY PLENTY

told the court that lower layers were from eight to 52 per cent defective and of inferior grade peaches.

"Would you say that extreme care had been taken in packing those baskets?" Magistrate Campbell asked.

"I would indeed," replied the inspector.

Magistrate Campbell fined Stoyanowski \$45 and costs, adding, "Don't be so careful in packing them next time."

There are mighty few people who have ever acquired a sheepskin from the school of experience.

When a girl thinks a man will make a good match, the chances are she will build a fire under him.

The Minister of Finance announces A NEW BOND ISSUE FOR PEACETIME SAVINGS

Canadians are thrifty people. Their record in war financing will stand for many years to come.

Through six years, millions saved and invested in Victory Bonds and War Savings Certificates in a way no one thought possible. Many thousands learned the convenience of regular, systematic saving, whether in small monthly amounts or by larger cash investment. As a result they have accumulated substantial personal reserves with all that means in increased future security and satisfaction.

Because suggestions and requests have come to me from all parts of the country that facilities for this kind of saving be continued in peacetime, the Canada Savings Bond has been created.

The issue of War Savings Certificates and Stamps to the general public will be discontinued on September 30th, and final instalments on the last Victory Bond issue will have been completed in the near future. Canada Savings Bonds, therefore, will provide an opportune means for citizens to carry on their regular savings habits without interruption.

The general public should note that this time there will be fewer salesmen than in the case of Victory Bonds. Although the new Canada Savings Bonds will be sold through banks, authorized investment dealers, stock brokers and trust or loan companies, these agencies will not be able to approach every individual Canadian. This means that for the most part it will be left to Canadians to assume the responsibility for their own purchases of Canada Savings Bonds. If they wish to grasp this opportunity, they should act for themselves without delay.

Canada Savings Bonds are designed to be the finest investment available to the public today. I recommend them to you as a safe, profitable and convenient investment for personal savings.

I now announce the terms of the new Canada Savings Bonds, which will be offered commencing October 15th.

M. A. Mulley
MINISTER OF FINANCE

Features of the new Canada Savings Bonds

Interest 2½% by annual coupon. Purchase price 100¢. Accrued interest will be charged if payment is made after November 15th. Issued in denominations of \$20, \$100, \$200, and \$1000.

Dated November 1, 1944, maturing in ten years. Redeemable by the Government at any time at full face value plus interest at coupon rate of any branch in Canada of any chartered bank. Non-transferable and non-assignable.

Holdings by any one person limited to \$2000. Registered as to principal, providing protection against loss. Available for cash, on the Monthly Savings Plan or by personal arrangement with a bank.

"that's a fine home you're building!"

YES, I think I'm going to like it.

I wish I had a home of my own.

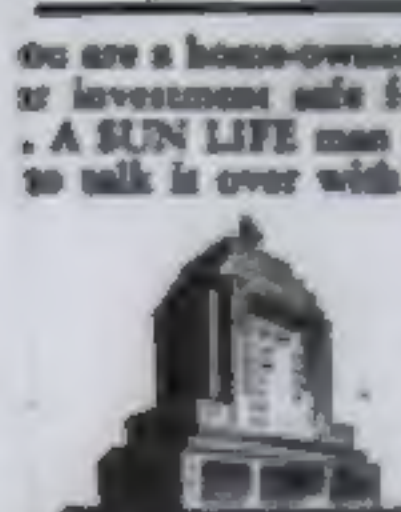

Well, why not?

My wife has the idea that it would be a great worry if anything happened to me.

Nothing to it, my boy. The arrangements I've made with the SUN LIFE OF CANADA will clear the mortgage in the event of my untimely death.

I never thought of that. What about the cost?

Insignificant! In fact, it adds very little to the carrying charge of the mortgage.

REVISED FIGURES

Pears: The total Pear estimate is now placed at 218,610 bushels, an increase of 27,610 bushels over previous report, chiefly due to excellent aising and improved prospects for Kieffers. This total crop estimate is, however, 40% under 5-year average yield 1940-44. Bartlett and other seasonal varieties already harvested have been of good size and quality and trees are in good condition.

Plums: As a result of unexpected heavier harvesting of European and Prune varieties, previous estimates require upward revision and the total crop is now placed at 189,650 bushels, made up of 19,105 bushels Japanese, 183,920 bushels European and 6,620 bushels Prunes. This estimate anticipates a crop slightly better than in 1942 but somewhat less than in 1941 and shows an overall 23% increase over the 5-year average 1940-44. The quality and size of fruit has been excellent with general freedom from insect or disease damage. There has been a heavy demand by processors for both Plums and Prunes.

Peaches: Total revised estimate of 1,426,100 bushels is a slight betterment over last report and is 56% over 1945 yield and 26% better than the 5-year average 1940-44. Although the size of "v"-type and some earlier varieties was below normal in some orchards of Niagara, Elbertas now practically all harvested have been generally of good size, colour and quality. Brown Rot incidence has not been extensive and Peach Moth injury and Ink Spot damage fairly well localized and confined to later harvestings. Some loss occurred from "drop" in Elbertas owing to rapid final maturing and wind. A record pack by processors is anticipated.

Grapes: The present total estimate is 34,450 tons, practically unchanged from last report and is 10% better than in 1945 and 30% increase over 1 year average 1940-44. The crop as yet unharvested is maturing well and good quality is anticipated for both fresh and processing outlets.

TIMELY INFORMATION

been in substantial production, and two later varieties, Veefreeze and Vanguard. Merits and demerits of these varieties have been summed up by station officials as follows:—
The Vedette, an open-pollinated seedling of the Elberta, matures three weeks earlier than the Elberta, and is much more attractive in colour and of better quality. Normally the Vedette is a freestone at full maturity, but in occasional seasons may be only semi-free. In tests made by the U.S. Department of Agriculture, the Vedette has been placed among the top 12 of 60 varieties tested for quality six months after processing.

Also ranking among the top twelve in tests by the U.S.D.A. is the Veteran peach, a seedling of the Vaughan and Early Elberta. The Veteran fills a gap between the early V's and the Elberta. The tree is usually hardy in wood and bud and has produced excellent crops in seasons when adverse weather conditions have caused a partial or complete failure of most other varieties. The Veteran, however, requires better cultural conditions than most peach varieties and tends to be only semi-free, an objectionable feature for canning purposes. In dehydration tests by the U.S.D.A., the Veteran was among the top four of 62 varieties tested.

The Valiant, also an open-pollinated seedling of the Elberta, matures very shortly after the Vedette, and has also been ranked among the top four of the varieties tested for dehydration purposes. Because of its darker colouring, it is not considered as attractive as the Vedette, but it is equally as good in quality, being a full, round, yellow-flesh peach, and freestone. Reports indicate that it holds its size as the trees grow old better than the Vedette, and that it has been planted as heavily as the Vedette by Ontario farmers. The trees and buds are harder than the Elberta.

The Viceroy, which was officially introduced in 1929, is a dependable bearer, and also a hardy variety, being propagated from the Vaughan and Early Elberta. Because of its semi-cling characteristic and its exceptionally thin skin which causes it to bruise easily, it is not recommended for general planting, despite its high rating in U.S.D.A. tests for preserving and dehydration. Its maturing season is practically the same as the Vedette's and Valiant's.

The Vimy, introduced in 1924, is also not recommended for commercial planting because of the self-unfruitfulness. Even with cross-pollination, crops are usually light and the tree overly vigorous. The fruit is large and showy, and of fair to good quality. It is freestone, but the flesh is a greenish yellow and is not favoured for processing.

The Vaughan peach is a self-pollinated seedling of the Leam-

ington, a white-flesh variety which originated in South-western Ontario. It is a yellow-flesh, freestone peach and exceptionally hardy, but the fruit is fuzzy and is not as attractive as other varieties maturing at the same time, such as the Golden Jubilee. Since the trees are very heavy crops a great deal of thinning is required to secure size and appearance.

The Vanguard, introduced in 1941, is of Vaughan and Valiant parentage, inheriting the hardiness and quality of the Valiant. It matures in early August, competing with the Fisher and Oriole varieties. Experiences with the variety at the Experimental Station have proved the trees to be dependable bearers, but wide distribution to commercial growers for testing purposes was delayed because of the introduction of the Fisher. The tree is harder in bud than the Fisher, the fruit larger and of uniformly good shape.

The Veefreeze, introduced in 1940, is probably destined for greater popularity because of its non-oxidizing characteristic, which makes it suitable for quick-freezing. The yellow flesh of the Veefreeze, unlike that of the other "v" varieties, may be exposed for more than 24 hours without showing signs of turning brown, a quality which is highly desirable in products for fast-freezing. In tests made by the Department of Horticulture at the Ontario Agricultural College, Guelph, the Veefreeze was rated above all other varieties tested in fast freezing units. This variety is also highly satisfactory for ordinary market purposes, being semi-freestone, of good size and appearance. Maturing season is between the Veteran and Elberta.

PITY THE PHEASANTS

A. Wilson, of Merriton, the council received the report with regret and authorized the Warden and clerk to make the necessary financial adjustments to carry out the county's responsibilities.

Adopting a resolution presented by Deputy-Reeve J. D. Taylor of Louth, chairman of the Agricultural Committee, the council yesterday endorsed a resolution of the Oxford County Council protesting the transfer of Japanese from Western Canada into Ontario for farm labor.

A recommendation from the Department of Highways that the council pass two bylaws to cover their proposed road additions for the years 1947 and 1948 instead of one such measure was referred by council to the special road committee. The report of the Board of Management of the Industrial Home was presented by Reeve

George Wiley of Louth and adopted. With Reeve Cecil Seccord of Grantham acting as chairman, the Public Health moved to file a request received at the morning sitting from the Louth Women's Institute. The letter from the Institute requested council to nominate a woman as one of its three members on the Board of the St. Catharines-Lincoln County Health Unit. The council approved the action of the committee in filing the request.

Bylaws were passed by council authorizing the payment of mileage in lieu of payment to jurors on Sundays and other days when their services were not required, appointing Charles L. Tallman as caretaker of the county buildings, and to expropriate a portion of land between concession six in North Grimsby and concession seven in South Grimsby to open up, widen and improve the county road between the two townships. Acting upon a request of the Niagara District Pheasant Breeders Association,

FOOLISH TO TAKE

is just as tragic that the public does not always take advantage of the measures that are available to curb or entirely prevent diphtheria, whooping cough, smallpox and scarlet fever.

Diphtheria toxoid is almost 100% effective in preventing diphtheria. In spite of this, a child died in St. Catharines only two weeks ago with diphtheria. This child, a visitor to the county, had never been immunized. Whooping cough vaccine is at least 50% effective in preventing the disease. In cases where immunized persons do contract the disease it is much milder. Scarlet fever immunization is not always successful in preventing the disease but it is effective in preventing serious complications. Smallpox vaccination has effectively controlled that dread disease. The only death from smallpox in the Canadian Forces during the War was a man who had not been vaccinated.

With these effective measures available it would seem foolish to take unnecessary risks. However, the number of deaths reported each year makes it obvious that many parents are still neglecting these important immunizing agents.

Every physician and every local Health Department is willing and able to carry out these procedures if the parent will co-operate by making the decision to have the child protected.

FATAL ACCIDENT

year-old sister, Mary Gulewich.

The boy is said to have laid his gun down while he crawled through a narrow opening and to have reached back and drawn the gun towards him barrel first. The trigger apparently caught on some object and discharged one barrel the full charge entering the lad's chest and penetrating the heart. His mother and another sister, Antonia, were outside the end of the building.

The body was removed to the Buck Funeral Parlour where a postmortem was performed on Sunday by Dr. Whitaker, pathologist of St. Catharines General Hospital. Dr. C. W. Elmore, coroner of Beamsville, said that an inquest would probably be held. Provincial Constable E. G. Hope is in charge of investigation.

The dead boy has resided in the township for the last year and was a popular fifth form student at Beamsville High and Vocational school.

Funeral Mass was held at St. Mary's Ukrainian Greek Catholic church, Grimsby, on Tuesday morning. Besides the members of the family mentioned above, he is survived by a sister, Claudia, nurse-in-training at St. Joseph's Hospital, Toronto.

"THE MOOSE"

Based upon a picture painted for Carling's by E. M. Sinclair.

This is one of a series of illustrations on the subject of the Conservation of Canada's natural assets designed to emphasize the fact that the beauty of our natural resources that we enjoy today are a precious heritage which we must protect for tomorrow.

"Give Him a Sporting Chance"

Wily, courageous, resourceful, the Canadian moose asks of mankind only a sporting chance of survival. In the vast forests which are his home, he is king—able to overcome most of the dangers that beset the creatures of the wild.

His sharp hooves and antlers are a match for predatory wolves—his thick coat and mighty frame equal to the hardest winter—his skill, speed and endurance are such that he can be expected to survive even the high-powered rifle of the huntsman—providing that the hunting is carried on according to the reasonable and just laws of conservation.

Things that he cannot survive are indiscriminate hunting, the destruction of his feeding grounds by fire, and the disturbance of the "natural balance" by which Nature protects all wild-life. The destruction of beaver causes marshes to be drained and the moose are deprived of their best feeding grounds. The destruction of smaller game will cause wolves to turn in ravenous packs upon deer and moose. Thus we see how conservation protects not one, but all wild creatures.

We all have a vital interest in the conservation of our wealth of wild-life and natural resources, for these are part of a heritage in which we all share. The preservation of that heritage demands, from each one of us, a thorough understanding of the needs and methods of conservation, and this realization prompted the forming of The Carling Conservation Club.

Vegetables for winter use

It's time to arrange for the storage of vegetables from the garden. Before putting in storage see that the vegetables are free from decay, disease, and damage caused by insects or rough handling. Store in a clean, cool ventilated part of the cellar. If the floor is of concrete sprinkle a little water occasionally to maintain the necessary humidity. Beets, carrots, parsnips and turnips keep best in sand.

County Council

At the opening of the September sessions of the Lincoln County Council Tuesday morning in St. Catharines, Warden Robert M. Johnston expressed regret at the dissolving of the Lincoln County Citizens' Committee. "The men on the committee did a lot of work," he said, "and it will be a great loss to the community."

Warden Johnston made his remarks to the council upon receipt of a communication from the Citizens' Committee notifying the council that the committee would be dissolved on the 31st of December of this year. "I supported the resolution to dissolve the committee," Warden Johnston stated, "and as I see it, there wasn't the fullest co-operation given by the City of St. Catharines."

He informed the council that the city planned to set up a committee to deal with the St. Catharines veterans alone and said that "it is regrettable that the city and county cannot co-operate in the work." Pointing out there was no need for separate committees to deal with city and county veterans, Warden Johnston declared that it ought to be done jointly.

He also took the Grand Jury at the recent sittings of the Supreme Court in St. Catharines to task during the course of his remarks. Pointing to the amount of work and modernization accomplished in the county buildings during the past year, Warden Johnston said that the Grand Jury in its report had not mentioned any of this work but had simply pointed out other things that have not been done.

In a communication read to the county council this morning, the Louth Women's Institute went on record as being in favor of a woman sitting on the Board of the St. Catharines-Lincoln County Health Unit as one of the county representatives. The Institute further requested that the county appoint a woman representative when the next appointments of the three county members are made.

The Hon. Russell T. Kelly, minister of health for Ontario, notified the council by letter today that he could not give much encouragement to the request of the council for the establishment of hospitals for patients suffering from chronic illnesses and who are now in Homes for the Aged and Infirm. He congratulated the council on its stand but pointed out that the dearth of nurses and scarcity of beds in hospitals did not improve the situation.

The Board of Governors of the St. Catharines General Hospital requested that the county designate representatives to attend a meeting with the Minister of Health and Labor and city representatives to discuss future development at the hospital.

Queenly Maria Not So Brave

Maria Monter, imperious as a real queen, demanded a real African lion for a scene in "Sudan," Universal's Technicolor spectacle, showing tonight and Friday night at the Roxy Theatre, with Jon Hall and Turhan Boy her co-stars.

"But, Maria," reasoned Director Rawlins, "the script calls for no lion."

"That makes no difference," replied Maria firmly. "As a brave queen, I should be seen petting a lion."

So the next day, when the scene was to be filmed, a genuine, honest-to-goodness lion was on hand. Rehearsals started, and the lion, calling Miss Monter, gave out with a terrifying roar.

Miss Monter, a little less queenly, lost no time getting off the set. From the safe confines of her dressing room she summoned the director.

"On second thought," she told Rawlins, "I guess the queen wouldn't have a full-grown lion running around as a palace pet. We keep the lion, eh? but we put him in a cage."

"The queen, she will be brave some other way."

MORE SHORTENING SOON

Housewives unable to bake pies and cakes because of insufficient shortening will be glad to learn there are substantial shipments of edible vegetable oils on the way to Canada from Argentina.

A Prices Board official said Monday additional supplies of shortening, derived from the vegetable oils, would be on storekeepers' shelves by November in sufficient quantities to "definitely alleviate the present short supply."

Although Canada produced some shortening from soya beans, sunflower, rape and flax seeds, 55 percent of this country's requirements were imported. Consequently the quantities of vegetable oils allocated to Canada by the International Emergency Food Council had not satisfied the demands of pastry-baking Canadian housewives.

CLIMATE AND HEALTH

While wind, rain and sun may be hard on such lifeless objects as brick and stone, they are essential to living creatures, including human beings, declares the Department of National Health and Welfare. The government health experts point out that living organisms grow stunted and pale when cheated of benefits of the weather. For health, people should get out of doors as much as possible, for the open air is the natural habitat of breathing things.

Even when it comes to wishful thinking the average man makes a man-sized wish.

Figure It Out For Yourself

Suppose one of these evenings when you and yours are enjoying the comforts of the home and all seems serene you suddenly detect the odor of smoke and discover your house is on fire. What will you do?

Why, of course, you will summon the firemen, either by going to the nearest alarm box or by rushing to your telephone for assistance. You will rightfully expect the firemen to come to your aid just as quickly as possible.

And did it ever occur to you that these firemen who will rush to your assistance are your neighbours who will brave the elements and exert their ability for your welfare and protection?

These boys depend upon local support and you feel that you are with them at all times in their every endeavor. But are you?

Are you among those who think that some distant town is better than GRIMSBY and go there to spend your money for comforts and for the necessities of life? Do you realize that every dollar so spent in these distant places means that you are reducing the efficiency of the GRIMSBY fire department?

On the basis of fine stocks, lowest available prices for dependable merchandise and their ability to serve you, your local firemen respectfully ask you to patronize GRIMSBY merchants and keep up the efficiency of the GRIMSBY FIRE DEPARTMENT.

BREVITIES

EVENTS and TOPICS of the WEEK in TABLOID

Salvage Collection on Saturday.
Town Council meets next Wed-
nesday night.

A. Cope and Sons, Contractors,
are oiling different streets in town.

Chief Turner had no less than
seven "Jungle Juicers" in the cal-
aboose on Tuesday night.

Peach crop is finished. Growers
are now busy harvesting one of the
finest crops of grapes ever produc-
ed in the district.

Lions Club will meet in the Oak
Room of The Village Inn for the
first time for the 1946-47 term, on
Tuesday evening next, at 6.30 p.m.

"Bill" Fisher has severed his
connection with the Grimsby Meat
Market and accepted a position
with a Hamilton insurance agency.

Gather up all your old Sprites
bottles, including the "Mickys"
and put them out for the Legion
salvage boys on Saturday. They
can get real money for them.

Trevor H. Hamill, of the Field
Service Department of The Cana-
dian Chamber of Commerce, was
a visitor in town on Friday last in
the interests of the Chamber.

The ex-members of the 176th
Overseas Battalion of the Second
Great War will hold a re-dedication
of the Battalion's colors in Drum-
mond Hill Church, Sunday, Oct. 13.

A short circuit caused a blaze
in the car of Roy Mino while it
was parked on Main street on
Wednesday morning. Chief LePage
extinguished the blaze with a small
chemical tank.

First meeting of the fall season
of West Lincoln branch, Canadian
Legion, will be held in the Masonic
Hall, on Wednesday night next at
eight o'clock. There is considerable
business on hand to be attended to.

Building permits in St. Cathar-
ines continue to soar, with 50 is-
sued during the month of Septem-
ber with a value of \$140,125. In-
cluded were 18 dwellings at a value
of \$99,600. Total permits to the
end of September were valued at
\$1,690,195. Last year's total to the
end of September was \$790,318.

Chief of Police W. W. Turner re-
ports that the insurance policies
that were stolen along with Victory
Bonds and cash from the safe that
crackmen blew in the offices of
Hewson and Son last month, have
been recovered. They were found
last Sunday by a party of picnickers
seeking a beauty spot to hold their
picnic along the banks of a creek
at Bromfe.

George S. Lewis, Warden of
Carleton County; M. A. Honeywell,
Auditor of the county and Howard
Craig, Reeve of North Gower town-
ship, were visitors in Grimsby on
Monday night and were guests at
dinner at The Village Inn of ex-
Reeve H. G. Mogg and Ex-Mayor
Watson McPherson. Mr. Mogg is
Amusement Supervisor for Carle-
ton County.

Hamilton — Ontario

REAL ESTATE

The following properties have
just been sold through the office of
Winifred Congdon, Realtor.

50 acres grain and fruit, located
on Highway 20, South Grimsby.
Vendor R. Greenwood. Purchaser
Bernard Sorenson from Owen
Sound.

6 Main St. E. John England from
Hamilton has purchased this build-
ing, and will open up a high class
dress store.

Mr. and Mrs. Barrington Gar-
ham and family, recent arrivals in
the Grimsby district from Havana,
Cuba, have purchased the fine bus-
gallow home of Mrs. H. L. Roberts
on No. 8 Highway east and will
take possession early in November.
We are pleased to welcome Mr. and
Mrs. Garham to Grimsby to re-
side.

MAGIC BY MOUTH

No matter how "fagged" you are,
a "square meal" can work magic
for you. The Department of Na-
tional Health and Welfare, through
its nutrition authorities points out
that lack of food, or improper diet,
can result in fatigue, headache, di-
gestive upset and other ailments.

Wise people, they say, give ser-
ious thought to their food—both as
to quality and quantity.

Buys Business

Clarence H. Rutton for the past
11 years in business in Grimsby as
a barber and literally as a restaur-
ateur has purchased a business in
Dundas and will take possession on
the 15th of this month.

It is a large restaurant and ice
cream parlor in the heart of the
town. The deal includes property
which houses the business and two
large apartments.

During his residence in town
"Rush" was very prominent in
softball and hockey and brought all
told five championships to Grims-
by.

New MovieCircuit For TheCounty

A moving picture circuit will be
initiated in Lincoln and Wentworth
counties this week through the Na-
tional Film Board office at Ouelph.
It was announced Tuesday by E. F.
Neff, secretary of the Lincoln Fed-
eration of Agriculture.

In charge of an ex-serviceman
projectionist, the circuit will have
ten showings in each county each
month. The Ontario Department
of Education is co-operating in
the project, providing part of the
cost, since the showing will be of
special interest to school children.
Special arrangements will be made
to transport pupils to the central
points where movies are to be
shown, Mr. Neff said.

The pictures selected for show-
ings in October are "Animals of
the Rocky Shore" and "Posture
and Exercise," both of which are
National Film Board productions.

A meeting to complete Lincoln
County arrangements will be held
Friday in the agricultural office in
St. Catharines, and will be attend-
ed by the Women's Institute execu-
tive and the Home and School
Association executive. W. A. Mar-
shall, public school inspector, will
also be present.
